

**THE BULLETIN  
OF THE FACULTY OF BIORESOURCES  
MIE UNIVERSITY  
No. 31  
MARCH, 2004**

CONTENTS

**Original Articles**

Yoshihiko SEKINE:

A Numerical Experiment on a New Current, the Ryukyu Current Extension,  
in the Shikoku Basin. Part I Linear and Weak Nonlinear Model ..... 1

Yoshihiko SEKINE:

A Numerical Experiment on a New Current, the Ryukyu Current Extension,  
in the Shikoku Basin. Part II Eddy Generating Model ..... 25

Mu Mu THAN, Sohji INOUE and Md. Zakaria HOSSAIN

Mechanical Behavior of a Concrete Dam and In-situ Block Shear Test Analysis ..... 53

Masaaki KONDO:

Adsorption of Phosphorus and Release of Calcium using Kibushi Clay  
(in Japanese) ..... 65

Susumu TAKAYAMA

Considering the Framework of Environment-Civilization History from the  
Analogy of "Microcosm" – Malthusian Traps and Escaping from Them – (in Japanese) ..... 73

Abstracts of Doctor Theses and Titles of Master Theses in the Faculty of Bioresources,

Mie University, April 2002 to December 2003 ..... 97

Instructions and Notes for Authors (in Japanese) ..... 129
